About this Database

The Civil War Soldiers and Sailors System (CWSS) is a cooperative project of the National Park Service, the Federation of Genealogical Societies, and numerous genealogical and historical societies. The names index was created by entering the data found on the General Index Cards to the Compiled Military Records.

The Ohio Genealogical Society was responsible for entering the Ohio soldiers in the CWSS. Nearly 400 volunteers worked on the Ohio portion of the project, resulting in a database of almost 400,000 soldiers' names. The data presented here is the result of their efforts and is shared with the public via the OGS website with permission of the CWSS.

Researchers are encouraged to visit the CWSS website www.civilwar.nps.gov/cwss/ to search in other states and to read [unit histories](#) and [battle summaries](#).
